

# STATISTICAL ABSTRACT OF KERALA 1959-1960

ISSUED BY

THE DEPARTMENT OF STATISTICS  
GOVERNMENT OF KERALA, TRIVANDRUM

# PREFACE

In this issue of the Annual Statistical Abstract of Kerala State, an attempt has been made to bring together all the essential statistical information relating to the agricultural, economic and social position of the State. It has however to be admitted that even with the best of efforts there are still gaps which remain to be covered. It is hoped that the Department will be able to cover the gaps in the future issues.

Short explanatory notes for each section have been given at the end to explain the scope and coverage of the data and the concepts.

A table showing the ratios for conversion to metric units is appended.

The Department wishes to acknowledge with gratitude the valuable co-operation and help extended to it by the Departments of the Central and State Governments in the preparation of this Abstract.

## EXPLANATORY NOTES

### SECTION I. AREA AND POPULATION

In this Section is presented data regarding area and population of Kerala State and its Districts and Taluks,

After the formation of the Kerala State on 1—11—1956, there has been reorganisation in the set up of Districts in the State more than once, the latest being on 1—4—1958 when the Ernakulam District was formed. Data presented in the Section are for Districts as per the present reorganised set up.

The information is based on the Census Reports for 1951 and estimates for the new Districts have been framed by the Department.

The estimates of population for years after 1951 given in Table No. 1.3 are also those made by this Department.

### SECTION II. CLIMATE

Meteorological data (Temperature and rainfall) are recorded in the State at six Centres maintained by the Indian Meteorological Department. Rainfall is recorded at 80 Stations maintained by the State Government also.

Data in Table 2.1 are those furnished by the Indian Meteorological Department and those in Table 2.2 by the Trivandrum Observatory and the collectors.

Monthly averages are given in Table 2.1

Information on daily rainfall are published in the Tables of daily rainfall separately issued by the Department regularly

### SECTION III. MEDICAL, VITAL STATISTICS & INDIGENOUS MEDICINES

This Section gives information on

- (i) Distribution of medical institutions (Allopathic) beds and patients treated
- (ii) Registration of births and deaths; and
- (iii) Working of the Indigenous Medicines (Ayurveda) Department in the State.

Data on (i) and (iii) are furnished by the Director of Health Services and the Director of Indigenous Medicines respectively.

Information on births and deaths are those collected by this Department from the Offices of the Registrars of Births and Deaths. As is evident from the data presented, there is an appreciable extent of under registration of births and deaths in the State.

### SECTION IV. AGRICULTURE

The classification of land area in the State according to use given in Table 4 . 1 is based on the following:—

- (i) Forests                      These include all actually forested areas or lands classed or administered as forests under any legal enactment dealing with forests whether State owned or private. If any portion of such land is not actually wooded but put to some agricultural use, that portion is included under the appropriate heading of cultivated or uncultivated land.
- (ii) Land put to non-agricultural uses.      This stands for all lands occupied by buildings, roads and railways or under water, eg. rivers and canals and other lands put to uses other than agricultural,

- (iii) Barren and uncultivable land. This covers all barren and uncultivable land like mountains, deserts, etc. Land which cannot be brought under cultivation unless at a high cost, is classed as uncultivable, whether such land is in isolated blocks or within cultivated holdings.
- (iv) Permanent pastures & other grazing lands. These cover all grazing lands, whether they are permanent pastures and meadows or not. Village common and grazing lands within forest areas are included under this head.
- (v) Miscellaneous trees crops and groves not included in the net area sown. Under this class is included all cultivable land which is not included under net area sown but is put to some agricultural use. Lands under casurina trees, thatching grass, bamboo bushes & other groves for fuel etc. which are not included under 'orchards' are classed under this category.
- (vi) Cultivable waste. These include lands available for cultivation but not taken up for cultivation or abandoned after a few years for one reason or the other. Such lands may be either fallow or covered with shrubs and jungles which are not put to any use. They may be assessed or not assessed and may lie in isolated blocks or within cultivated holdings. Land once cultivated but not cultivated for five years in succession is also included in this category.
- (vii) Current fallows. This class comprises cropped areas which are kept fallow during the current year. If any seedling area is not cropped again the same year, it is also treated as current fallow.
- (viii) Other fallow land. This includes all lands which were taken up for cultivation but are temporarily out of cultivation for a period of not less than one year and not more than five years. The reasons for keeping such lands fallow may be one of the following (1) poverty of cultivators, (2) inadequate supply of water, (3) malarial climate, (4) silting of canals, and rivers (5) soil erosion and (6) un-remunerative nature of farming.
- (ix) Net area sown. This consists of net area sown with crops and orchards, areas sown more than once being counted only once.

The total cropped area represents the sum total of area under all crops. The difference between the total cropped area and net area sown is accounted for by the area sown more than once on the same land during the same year with the same or different crops,

The data on mean yield of paddy given in Table 4.5 are based on the results of the crop estimation surveys conducted by the Department.

Number of agricultural implements and machinery given in Table 4.7 are those enumerated in the 1956 Census and 1951 Census.

## V. LIVESTOCK

The only source of data for numbers of livestock and poultry is the quinquennial livestock Census conducted in the State. The last Census was in 1956. Comparative figures for 1956 and 1951 are given in Table 5.1.

Data on livestock slaughtered are available only for the slaughter houses maintained in municipalities. The information is collected by this Department from the Municipalities (vide Table 5.2)

Reliable data on livestock products are lacking, at present.

## VI. VETERINARY SERVICES.

Data on the activities of the Animal Husbandry Department are given in this Section. The distribution of veterinary institutions in the various districts is given in Table 6.1. The services rendered in these institutions are stated in Table 6.2. Table 6.4 gives information on the receipts and expenditure of the Department.

## VII FORESTS

The area reserved forests and reserved lands given in Table 7.1 are those under the control of the Forest Department. Data are available only for forest divisions and not for Revenue Districts.

Timber, fuel and sandalwood are the major items of forest produce and data on the production of these are given in Table 7.2. In Table 7.3 only the more important of the minor items of forest produce have been specifically listed.

Information on important types of plantations maintained by the Forest Department is given in Table 7.4.

## VIII INDUSTRIES

In this Section is given data on industries covered by the C. M. I. (of the Government of India) and the distribution of registered factories in the State.

Table 8.1. The collection of data under the C. M. I. for 1958 was attended to by the Director of Statistics who is the Statistics Authority in the State for the collection of industrial statistics. The Census for 1958 was however conducted on a voluntary basis pending issue of new C. M. I. Rules. The Census is confined to only 29 industries of which Biscuit making, Paints and Varnishes, Tanning, Woollen Textiles, Jute Textiles, Producer gas plants, Sweing Machines, Electric lamps, electric fans, Distilleries, and Bi-cycles do not exist in the State. Some of the important industries of the State like, coir Cashewnut, Processing etc. are not covered by the Census. Further, all registered factories are not enumerated. Only those registered factories employing 20 or more workers on any day during the year and using power are covered.

Table 8.2 shows the district-wise and industry-wise distribution of registered factories in the State. All registered factories irrespective of the employment therein have been included. Employment figures are those collected under the Factories Act. For Factories not submitting returns under the Factories the Employment has been estimated.

## IX MINING

The only table under this Section gives the quantity and value of important minerals produced in the State. The value is the production value. The important mineral of the State is Ilmenite. This is taken from the mineral sand deposits in the coastal area in the Quilon District. Other important mineral components in the sand are Rutile, Zircon and Monozite. The production of monozite in the State has been suspended in view of its strategic importance as a fissionable material. A small quantity is however produced for use in the Rare Earths Factory in the State.

## X, ELECTRICITY

Data on generation and consumption of electricity in the State are given in this Section. Information on number of towns and villages served with electricity is also furnished.

## XI. LABOUR & EMPLOYMENT

Labour Statistics on employment in factories, wages and earnings of factory workers and agricultural labourers, industrial disputes resulting in work stoppages, working of Trade Unions, accidents in factories, Maternity Benefit in Factories and absenteeism in Factories are furnished in this Section.

Data on registrations and placings by employment exchanges are also furnished.

Employment in factories not submitting returns under the Factories Act are estimated on the basis of information available for previous years or subsequent year.

Average annual earnings of factory workers given in Table 11.5 have been calculated on the basis of the data furnished in the returns under the Payment of Wages Act. Data regarding wages and earnings of workers are collected under the Payment of Wages Act. Factory employees whose monthly earnings do not exceed Rs. 400/- are covered by the Act. 'Wages' include all earnings capable of being expressed in terms of money and payable under the terms of the contract.

Data on agricultural wages are collected by the Department through its field staff.

Details of Industrial disputes resulting in work stoppages are given in Table 11.7. The figures given are the latest revised figures. The primary data are supplied to the Department by the District Labour Officers of the State. Industrial disputes originate in a demand desired to be enforced and connected with the employment or non-employment or terms of employment or conditions of labour. Details of work stoppages affecting less than 10 workers are not included in the Table.

The information given in Table 11.8 pertains to Trade Unions and Federations registered under the Indian Trade Unions Act, 1926. Data on membership, income, expenditure and opening and closing balances are given, classified according to Industrial classification. The data relate to those unions who have submitted the annual returns.

Information on fatal and non-fatal accidents in factories is given in Table 11.9. The data are those furnished by the Chief Inspector of Factories.

Table 11.10 gives information on maternity benefits paid in the factories and plantations covered by the Maternity Benefit Act. The data relate only to establishments submitting returns.

In Table 11.11 is furnished information on absenteeism in factories (both voluntary and involuntary). The data are compiled from the quarterly returns submitted by Factories under the Labour Rules.

Tables 11.12 and 11.13 present in a summary form the working of the employment exchanges in the State.

## **XII. TRANSPORT**

Tables 12.1 and 12.2 give information on the number of vehicles registered in the State and Table 12.3 on road accidents in which motor vehicles were involved.

Information on road mileage given in Table 12.4 is that collected by the Department from the Public Works Department Offices. The information pertains to extra-municipal roads (ie. roads outside the jurisdiction of the Municipalities) under the charge of the P. W. D. and under the control of the Local Bodies.

Tables 12.5 to 12.7 present in a summary form the working of the State Transport undertaking (nationalised) in the State.

Route mileage of railways is given in Table 12.8.

Some important Statistics of post Offices in the State are contained in Tables 12.9 and 12.10.

## **XIII. EDUCATION**

The data on University Education Contained in Table 13.2 and 13.3 are those furnished by the Kerala University and they pertain only to educational institutions under the control of or affiliated to the Kerala University.

## **XIV. STATE FINANCE**

Tables 14.1 and 14.2 in this Section gives summary information on the financial transactions of the State Government during the year 1959-60.

Table 14.3 gives information on the State Provident Fund Account and Table 14.4 on the achievements under the small Savings Programme during the year.

### **XV JOINT STOCK COMPANIES**

The Section contains four tables. The first two give information on the number of Companies that were newly registered and that went into liquidation or were struck off during 1958-59. The other two tables furnish data on the number of public and private Joint Stock Companies that were at work on 31-3-1959. Industry-wise classification is given.

### **XVI. CO-OPERATION**

Table 16.1 furnishes data on number, membership and financial position of Co-operative Societies under various types.

Industrial Co-operatives in coir and Handloom industries administered by the Industries Department are not included in the table.

Table 16.2 deals with Handloom Co-operatives and 16.3 with coir Co-operatives.

### **XVII. LOCAL BODIES**

Data on population, income and expenditure of municipalities are presented in table 17.1. Table 17.2 shows the distribution of Panchayats in the various Districts of the Kerala and the population served by these Panchayats.

### **XVIII. JUDICIAL**

This Section presents information relating to the administration of Civil and Criminal Justice in the State. Under civil justice data are given on number and description of civil suits, value of civil suits and general results of trial of civil and revenue cases both in the courts of original jurisdiction and appellate courts. Data given under criminal justice pertain to general results of trial of criminal cases and appeals and revisions, nature of offences and number of persons convicted and punishments inflicted.

### **XIX. POLICE**

Table 19.1 gives data on the strength of the Police force in the State. Information on equipment discipline and general management of the police force is given in table 19.2. Table 19.3 contains a statement of the grave crimes recorded in the State during the year. Details of property stolen and recovered are shown in table 19.4. Returns on cognizable crimes and non-cognizable crimes showing the number of persons tried, results of trial etc. are presented in Tables 19.5 to 19.8. Table 19.9 is a statement of the revenue and expenditure of the Police Department.

### **XX. JAILS**

Statistics of prisons and prisoners therein are given in this Section. Table 20.1 gives the number of convicts, undertrials and civil prisoners in the jails sex-wise. Information on religion, age and education of the convicts is given in table 20.2 the previous occupation of the male convicts in table 20.3 and the marital status of female Convicts in table 20.4. Table 20.5 furnishes information on the nature and length of sentences of the convicts admitted to the jails and table 20.6 shows the number of the convicts in the jails who had previous convictions. Working of the remission system is shown in table 20.7 and the condition of the prisoners released from jails in Table 20.8. Table 20.10 gives the financial statement of the Jail Department.

### **XXI REGISTRATION**

Table 21.1 gives the number and nature of documents registered in sub-registry offices in the State. The value of the property transferred is given in Table 21.2.

Receipts and expenditure of the Registration Department are given in Table 21 . 3.

Table 21 . 4 shows the area of agricultural land transferred during 1958 and 1959. The data are given by type of land and according to kind of deed. This information has been compiled by the Department from returns obtained from parties to the documents.

## XXII STATE EXCISE

In this section is presented data on the State excise revenue and the consumption of articles subjected to State excise duties.

In this connection it may be noted that Prohibition is in force in the State in the Trivandrum, Palghat, Kozhikode and Cannanore Districts and parts of Quilod and Trichure Districts.

Table 22 . 1 gives data on the number of toddy shops and tree tax realised from the tapping of trees for toddy.

Table 22 . 2 relates to the consumption of arrack (country liquor) in the State.

Table 22 . 3 and 22 . 4 pertain to the import and vending of foreign liquor.

Table 22 . 5 gives a statement of the receipts and expenditure of the State Excise Department.

## XXIII SALES TAX

Data on number of registered dealers, number of sales tax licenses issued and salestax revenue are presented in this section. A classification of assessees according to the grade of turnover assessed is also given.

## XXIV AGRICULTURAL INCOMETAX.

This section gives information on the number and classification of persons assessed to agricultural incometax revenue.

Classification of assessments according to grades of income and class of assessees is also given.

## XXV INCOMETAX.

The Statistics contained in this Section relate to assessments completed by the Income Tax Department, Government of India in the State during the financial year 1958-1959. The source is the Incometax Revenue Statistics issued by the Central Board of Revenue, Government of India.

Though the assessments completed during the year include a large number of assessment relating to the assessment year the statistics cannot be taken as correctly representing the results of all assessments relating to that assessment year. This is because a fairly good number of assessments for earlier assessment years have been completed during the year while some assessments relating to that year have been carried over to the next year. The figures of taxes given represent the demand raised and not the collection actually made against the demands.

The figures shown as 'unclassified' in the statements represent the income earned from these sources by assessees who are either pure refundees on account of their income being below the taxable limits or assessees who are totally exempt from levy of tax under the provisions of the Income Tax Act or assessees whose total income results in loss or unabsorbed depreciation and hence are not liable for levy of tax.

Analysis of net demands of incometax and supertax according to the class of income assessed is given in table 25.1. Table 25.2 gives the trade classification of business and professional income assessed to income tax and supertax. Classification of tax payable according to the range of total income and class of assessees is given in Table 25.3.

## XXVI. BANKING

Table 26.1 gives information on the number and amount of cheques cleared through the clearing centres managed by the State Bank of India.

The distribution of banks (scheduled and non-scheduled) in the State according to the paid up capital is given in Table 26.2.

The names of banks which went into liquidation during the year are given in Table 26.3.

## XXVII. PLANNING AND COMMUNITY DEVELOPMENT

Table 27.1 shows the outlay under the First and Second Five Year Plans of the State. Year-wise expenditure figures under the First and Second Five Year Plans are furnished in tables 27.2 and 27.3.

Tables 27.4 to 27.6 furnishes information on the working of the Community Development Programme in the State. The programme was initiated in October 1952. Table 27.4 shows the area and population of the various blocks that were functioning in the State on 30-4-1960. Table 27.5 shows the summary position in respect of the physical achievements under the programme and table 27.6 the expenditure incurred under various heads of account.

## XXVIII SHIPPING AND TRADE

Information on tonnage of vessels that entered and cleared at the various ports in the State is given in Table 28 . 1.

Data on exports by sea or principal commodities from the State are presented in Table 28 . 2. Table 28 . 3 gives figures of imports of important commodities into the State by Sea.

The figures represent the quantities and values declared by importers and exporters in bills of entry, and shipping bills. Import valuation in practice corresponds to C. I. F method. The basis of export valuation is strictly F. O. B. inclusive of export duty and/or cess where leviable,

## XXIX PRICES

Table 29 . 1 gives data on the wholesale prices of important agricultural commodities at selected centres in the State. Monthly average prices are given and these are the simple averages of the weekly quotations furnished by the field staff of the Department.

Quarterly average prices over a period of nine years (i.e. 1951 to 1959) for important agricultural commodities at Mattancherry (the most important terminal market and distribution centre in the State) are given in Table 29 . 2. These quarterly averages are based on the weekly prices supplied by the Cochin Chamber of Commerce.

In Table 29 . 3 is given the monthly working class cost of living indices for important centres in the State. The indices are computed by the Department. The indices for all the centres except Kozhikode are based on the results of the family budget enquiry conducted by the Department in 1955. So far as Kozhikode is concerned the weights are obtained from the family budget enquiry conducted by the Government of Madras in 1940.

Table 29.4 furnishes the indices of parity between prices paid and received by farmers. The indices are computed by the Department. The index of prices received is the weighted geometric mean of the farm price relatives of major agricultural commodities, weights being the value of production of the commodities. The commodities selected are paddy, cocoanut, arecanut, cashewnut, pepper, Ginger, Tapioca, Banna and Sugarcane. The index of prices paid by the farmers is the geometric mean of the indices of farm cultivation cost and domestic expenditure. The index of farm cultivation cost includes agricultural wages, price of bullocks and maintenance charges, cost of implements and manures.

**XXX. MISCELLANEOUS****Welfare of Backward Classes:**

Tables 30.1 to 30.3 pertain to the activities of the Harijan Welfare Department for the promotion of the welfare of the Backward Classes.

**Colonisation and Housing:**

The details of activities under the colonisation and housing scheme are given in tables 30.4 and 30.5.

**Fisheries:**

In table 30.6 and 30.7 are furnished data on fish landings in the State.

**Civil Supplies:**

Information on import and issue of food grains through fair price shops is given in table 31.6.

**ALL INDIA TABLES**

Nine tables giving information for all-India on selected topics of importance are given in this Section.

The first table gives data on area and population of Indian States. The next three tables give indices of agricultural production, industrial production and mineral production. Information on employment under the Central Government is given in the next table. Table VI furnishes indices of wholesale prices and table VII working Class consumer price indices. Table VIII shows the outlays under the first, second and third (provisional) Five Year Plans in the public sector. A summary statement showing the national income of India for the past few years is contained in Table IX.
